# Process to develop the Plan for Implementation of the PA

- 3/2016: **Workshop on PA and Implication to VN**: participants from ministries, NGOs, business sectors and international development partners. Identified key areas to focus to implement the PA with national circumstances
- 4/2016: **National Taskforce** established, led by MONRE, members from key ministries, science institutions
- 4-9/2016: **Series of consultation workshops** on the Plan organized
- 10/2016: **High-level consultation** workshop with NCCC, development partners, business sector and NGOs
- 28/10/2016: Prime Minister approved the Plan with 68 key tasks to implement until 2020 and 2030 by all sectors
- 4-8/2017: **Series of workshops to disseminate** the Plan to all 63 provinces, cities, ministries, business sector and NGOs

# Early achievements

- Has **clear division of tasks and responsibilities** of ministries, provinces and other government entities to implement the PA, focus on NDC, including reporting and evaluation of achievements
- **25 provinces has submitted** their integration schemes of implementing their responsible task into regular activities; other provinces and ministries are in the final process of integrating in their regular activities
- Implementing the PA has been being integrated in all levels of Vietnam
- **Need to further institutionalize** mitigation targets, transparency system for mitigation, adaptation and allocation of resources to achieve contribution targets in Vietnam's NDC

# Major efforts until 2020

# Lessons learnt

- Keep climate change at the **top government agenda**; get commitment/supports from the top leaders
- **Involve all stakeholders**, especially key contributors, business sectors, communities in the formulation process since they are the main implementers
- Establish **feedback system** to monitor the achievement and comments for improvement
- **Institutionalize NDC targets** need to be done as soon as possible
- **Integration** climate change response activities with other efforts when applicable (SDG, natural disaster prevention, green growth...), especially at local levels to reduce burden and maximize use of resources and management
